## Why Study on this Course?

- 18 Months Study
- Up to 9 ACCA Exemptions
- Training Qualifications UK Degree
- Recognised Internationally

## Course Insight

The TQUK Accounting programme is suitable for business graduates wishing to enter work or are currently working in the accounting and finance sector. The course is offered via live streaming sessions and has a total duration of 18 months. Upon successful completion, graduates may be granted up to 9 exemptions of the 13 required professional examinations with ACCA (Association of Chartered Certified Accountants).

The qualification encourages learners to critically evaluate current academic concepts, theories and research in order to address key issues in Accounting and Finance. Learners will develop an understanding of current practice together with specialist analytical skills and knowledge.

## Entry Requirements

To be admitted onto this programme, learners should have an honours degree, preferably in a Business and Accounting related subject, or a professional qualification, or a degree equivalent from a recognised overseas institution. Learners should also be fluent in written and spoken English. Evidence should be provided where learners have studied in a

University where English is not the official language. Acceptable evidence includes: GCSE /A level English, IELTS 6.5, an equivalent qualification or by another method devised by the centre.

Learners who do not hold an honours degree may be accepted if they have completed Year 1 and Year 2 of an honours degree, or have a minimum of two years' work experience in a responsible role, preferably within Business and Accounting.

The recommended minimum age for this qualification is 19 years.

## Assessment

This qualification is assessed through a portfolio of evidence of activities, which are developed by the College (subject to external quality assurance/verification by TQUK) and internally marked. These will include, online group discussions, written assignments, case studies, online question-and-answer sessions and mandatory final exam completed the required minimum credits.

It is the intention of the College to deliver the course/modules as published in this brochure. To ensure our provision is kept relevant and current, the College may change, combine or withdraw courses/modules without prior notice, in response to stakeholder feedback or limited demand.

## Where Next?

The high demand for graduates with this degree makes it an ideal launch pad for a career in finance, management, accountancy, marketing and human resources in both private and public sector organisations. Our graduates leave diverse career paths and valuable knowledge to thrive in a competitive job market with a fast-paced, ever-changing global economy. Many students continue their studies on a Postgraduate level. Due to the flexible nature of this course, students may enter employment in conjunction with their studies.

## Course Aims

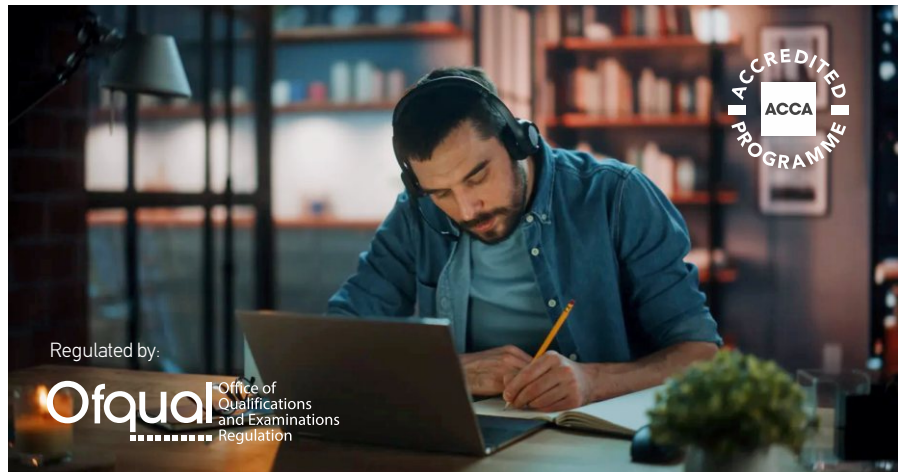

- To provide an intensive programme that both critically evaluates and synthesises current academic concepts, theories and research to address key issues in Accounting and Finance.
- To equip students with specialist analytical skills and knowledge to take advantage of opportunities and minimise threats within the complex real world environment.
- To develop students' problem-solving and decision-making skills and judgment in the field of Accounting and Finance.
- To enable students to develop and refine their own comprehensive 'toolbox' of Accounting techniques and encourage them to practice the application of such tools.
- To set in place an approach to life-long learning and the acquisition of skills which will enable them to apply a structured and reflective approach to their personal development.
